

Information advantage begins with a relevant approach.

Capabilities Statement

We build scalable situational awareness platforms that provide insights on distinct population segments or relevant entities for superior awareness, decision-making, and action at the strategic, operational, and tactical levels in gray zone conflicts.

Core Competencies

- Designing and implementing media campaigns to meet the needs of our partners
- Systematically gathering, recording, tabulating, and presenting data analytics to our partners
- Imagining, coding, configuring, testing, and supporting software to meet the needs of our partners
